BRITISH FORCES MARCH FOR RELIEF OF KIMBERLEY.

Forward Movement Organized to Succor the Besieged Town—England Landing a Large Number of Troops at Cape Town—Boers Are Reported to Be Closing in on Ladysmith—Paris Papers Insist That This Town Has Fallen—Rumors of Serious Battles.

The war office does not confirm the report of Gen. Joubert's death at Ladysmith.

Rumor Current at Petermaritzburg. Petermaritzburg, Nov. 11.—[Special Cablegram]—It is rumored here that Gen. Joubert was killed at Ladysmith.

For the Relief of Kimberley. Cape Town, Nov. 16.—[Special Cablegram]—A forward movement for the relief of Kimberley has begun. It is reported that the Boer general, Coen, is withdrawing from Mafeking and concentrating all his forces at Kimberley. The Boers have deserted Belmont Station, south of Kimberley on the railroad.

Boers are Drawing Closer. Estcourt, Natal, Nov. 16.—[Special Cablegram]—The West Yorkshire and other regiments have arrived here since November 12. The Boers have begun a closer investment of the British position. The Boers are said to be establishing a civil government in Northern Natal.

REPORTED DEATH OF JOUBERT

Boer Commander Said to Have Been Killed in Battle.

Durban, Nov. 16.—The Times of Natal publishes a telegram from Lourenço Marques saying that Gen. Joubert was killed in action on Thursday, Nov. 3.

Gen. P. J. Joubert was vice-president of the South African republic, and his death, if the report be true, will be a severe blow to the Boer cause. Gen. Joubert was a Dutchman, one of the founders of the Boer republic, an old friend of Pretorius, who led the "trek" from Natal across the vaal, and a fighter.

Gen. Joubert was said to represent the more conservative element in the Transvaal who did not desire war and thought an amicable agreement might be reached with Great Britain.

Gen. Joubert is credited with having planned the campaign of the Boers, and, if it is true that he has been killed, it will be difficult to fill his place.

GRIEF WEIGHS ON MRS. LOGAN

Widow of the Slain Major Suffering from Anemia of the Brain

Youngtown, Ohio, Nov. 16.—The condition of Mrs. John A. Logan is not reassuring. She is suffering from anemia of the brain, which has been aggravated by the shock received Tuesday when informed of the killing of her husband in the Philippines. Speaking to a friend she said:

"Others have their dead with them when the end comes, but I am denied even the consolation of having the remains of my beloved husband here. I deeply regret giving my consent to his going to the Philippines, but he believed it to be his duty and urged the matter so strongly that I withdrew my opposition. Although I know other wives and mothers in the land feel the same desolation I do it is hard to bear."

The two oldest children realize that their father will not return alive and are constantly weeping for him during their waking hours. Personal friends are in constant attendance upon Mrs. Logan. Her sister, Mrs. Leslie C. Bruce of New York, is here and will remain until the body of Major Logan arrives, which will probably be in five weeks.

TEMPEST IN A TEAPOT

Curiosity As to Why Dewey Wants to Transfer His House to His Wife.

Washington, Nov. 16.—There is a vast deal of curiosity here as to why Admiral Dewey wishes to transfer the title deeds of his new house to his wife. It is impossible to get an explanation from the admiral or any of his associates. There is no direct confirmation of the story that he is arranging such a transfer, but its truth is not denied, and silence in this case is regarded as giving consent.

At first thought one would naturally conclude the admiral had a right to do as he pleased with his own property, but some of the people who contributed to the fund for the purchase of that house are displeased at the news that it is to be transferred.

They say the house was bought for Mr. and Mrs. Dewey—for the hero of Manila Bay, not for Mildred McLean Hazen Dewey. Outsiders generally decline to permit themselves to become agitated over this teapot tempest.

Naturally there is no lack of speculation as to the reason for this action. Some say the admiral promised the Catholic church authorities when applying for the dispensation that he would place his estate in his wife's name that it might ultimately go to the church.

Others think of other and less pleasant explanations, as it is human nature to do when there is mystification as to the facts, but all of these theories are mere conjectures. The admiral's friends say they suppose he wants to save himself all bother about wills and such things and realizing that he is eighteen years older than his wife, thinks the best way to provide for her is to put the property in her name at the outset. But the admiral's friends are frank enough to say they wish he would not do it.

SEE ONE LONE METEOR

Williams Bay Observers Are Again Disappointed in Their Watch Last Night.

One faint meteor was seen through the big telescope at the Yerkes Observatory, Williams Bay, Wisconsin, at 10 o'clock last night. It was too faint to be photographed, but the astronomers took new hope from the sight of even one meteor.

Elsewhere and in this vicinity no meteors were seen up to midnight because of clouds of mists.

All conditions were most favorable at Williams Bay at 9 o'clock for observing the predicted showers of meteors. The sky was cloudless and the atmosphere was clear, but at 9 o'clock the astronomical staff of the Yerkes observatory had failed to note the appearance of a single meteor. Professor E. E. Barnard trained the biggest telescope in the world on the northeastern portion of the heavens as soon as darkness set in, and looked in vain for the flash of Leonid across the field. Professor Frost and Professor Ellerman were on the roof of the main building at the same time, ready to uncover the lenses of the sixteen cameras and photograph the flying crowd of meteors, and they, too, waited in vain.

Just before 10 o'clock arrived the entire staff of observers had about reached the conclusion that the elaborate preparations had been useless. The belief was freely expressed that either a mistake had been made in the predictions sent out from the Greenwich observatory or that the meteors had passed the earth during the daytime. In the absence of any telegraphic or cable reports from other parts of the world of a meteoric display, the opinion prevailed that an error in calculation had been made by the English astronomers.

BIG METEOR FALLS IN IOWA

Steaming Mass Makes a Hole Five Feet Square at Webster City

Webster, Ia. Nov. 16.—A large meteor fell in the woods just east of this place last night. It made a hole about five feet square and is still seething and steaming so that its full size cannot be determined. People in the vicinity say it made a loud roaring noise when descending.

GAGE TO RELIEVE THE MONEY MARKET

HE CREATES SURPRISE BY AN OFFER TO BUY BONDS.

Comes to Relief of New York Money Market With a Proposition to Retire Twenty-five Million Dollars in Government Securities—Some Criticism.

Washington, Nov. 16.—Much to the surprise even of some members of the cabinet, Secretary Gage, after banking hours yesterday afternoon, issued a formal notice offering to purchase \$25,000,000 in government bonds. The price fixed, is 112.75 net for the 4 per cent bonds of 1907 and 111 net for the 5 per cents of 1904. This price is on the basis of one-fourth of a cent above the figures bid yesterday, and is identical with the price at which bonds were offered on that day.

It is proposed to receive bonds in New York, Boston, Philadelphia, Baltimore, Cincinnati, Chicago, New Orleans, and San Francisco. The offer is to be open until Nov. 30, or until the amount of \$25,000,000 is exhausted.

The purpose of the secretary is, of course, to do something to relieve the New York banks and Wall street generally, in view of the unusual demand for money there.

Action Was a Surprise

Several members of the cabinet yesterday believed there would be no offer to purchase bonds, as the secretary at the cabinet meeting seemed to intimate that conditions would adjust themselves naturally. His action in offering to purchase bonds now is taken to mean that the conditions in New York may be somewhat worse than is generally understood, and that the treasury department is in possession of confidential information showing the necessity of some relief.

If the holders of \$25,000,000 in government bonds wish to take up the secretary's offer, it will of course result in adding \$25,000,000 to the currency in circulation, as that amount is now lying idle in the treasury.

Secretary Gage Criticized.

There is considerable criticism of the Secretary's action because it had not been believed that the situation was sufficiently serious to justify such an unusual step; but, on the other hand, the treasury is fairly running over with money and the opportunity to save \$2,000,000 or \$3,000,000 and at the same time relieve the banks in Wall street of the pressure no doubt was felt quite sufficient by the Secretary to justify the action.

Political advisers of the administration seem to be somewhat distressed at the Secretary's action, and assert that the Bryan people in the west will at once raise the cry that the treasury at once found means of relieving a demand for money in Wall street, whereas no such extraordinary measures were adopted when currency was needed greatly in the West and South.

ROBERTS TO FIGHT FOR SEAT

The Utah Congressman Declares He Will Not Resign

New York, Nov. 16.—Congressman B. S. Roberts of Utah, who is at present in the city, today denied the report that he intends to resign his seat shortly after congress meets.

"I have seen many such stories since I came east," said Mr. Roberts, "but there is absolutely no truth in them and absolutely no basis for the statements. I will say as emphatically as I can say it that I do not intend to resign and never had any such intention since my election."

"I was fairly elected and purpose to fight it out to the end with all the vigor at my command. Those who know me are aware of this intention on my part, and will not credit these reports, no matter in what terms they may be couched."

"The Mormon church has no more to do with politics than the Episcopal church or the Roman Catholic church. It is not in politics. I was elected on purely political lines, and will go to congress absolutely free of this so called church influence over me."

Lawton has abundant supplies, forage, subsistence and transportation at San Isidro and Cabanatur, but is unable to move it. MacArthur has the railroad between Bamban and Tarlac in operation. He sent four battalions and a troop of cavalry to Greco today."

NEW PHASE TO BANKRUPT LAW

Milwaukee Court Holds That Creditors Have No Right to Question Debtor.

Milwaukee, Wis., Nov. 16.—Judge Seaman in the United States circuit court has rendered a decision of great importance, as it will to a large extent vitiate the benefits of the bankruptcy act to creditors.

David Goodman has petitioned the court to be discharged from \$122,271 of liabilities. He has nothing in the way of assets. The creditors objected to the discharge, and sought to examine him to learn if there was any concealed property.

His counsel objected on the ground that answers to such question might tend to incriminate his client. Judge Seaman held the objection was well taken.

Attorneys claim that under this ruling all a man has to do is to turn his property over to his wife and then refuse to testify, as under the ruling of the court, a bankrupt's wife cannot testify against him, and there is absolutely no protection for the creditors.

ANTHRAX BREAKS OUT

Deadly Contagious Disease is Raging Among the Cattle at Medford, Wis.

Madison, Wis., Nov. 16.—Anthrax, a deadly contagious disease, has broken out among the cattle near Medford, and is causing considerable anxiety. Dr. Eugene LeSage, the local health officer, recently sent some flesh from a horse which had died from the disease to Prof. H. L. Russell of the chair of bacteriology of the university, and Prof. Russell pronounced the germs found in the flesh undoubtedly those of anthrax.

This disease, which is a serious menace to cattle, sheep, and to a less extent to horses, is rarely found in northern states, though it is common in the southern portion of the Mississippi valley and is always present in tropical countries. It resembles in some particulars "black leg," and is often confused with that, Dr. Russell says. It is sometimes called splenic fever from the enlarged condition of the spleen, which is one of the symptoms.

The disease not only affects animals, but attacks human beings, and in the human is called malignant carbuncle, breaking out on the surface of the body in great carbuncles. The disease among human beings is sometimes called wool sorter's disease. Prof. Russell thinks the germs of the disease came into Medford in hides shipped into the tannery there from some country where the disease is prevalent.

I have been tendered strong support from several counties in the district, and I believe I will be nominated. I intend to devote my entire time from now until the convention selects its choice, to fence-building, and I have promised myself a hard and bustling time until then. M. C. King of Clark county, I understand is a candidate, and from what has been told me Stewart desires a reelection; however that may be I am in the race to stay."

HAS TWENTY-SIX WIVES

Much Married Man Landed Behind Jail Bars at Rochester, New York.

New York, Nov. 16.—James Monroe, who has, the police say, twenty-six wives and many aliases, is locked in jail at Rochester. He refused to talk and the police officials will not give out any information concerning the prisoner or any of his victims.

Monroe was brought to Rochester from Chicago by Detective Kavanagh yesterday to answer to the charge of grand larceny preferred by Mrs. Colthar of Bunker Hill, Ill., who claims that Monroe defrauded her out of more than \$4,000 after marrying her.

Mrs. Colthar went to Chicago with the detective to identify the man. When she confronted him he smiled and shook hands with her.

He is 40 years old. His black mustache is lined with gray, as is also his hair. He is of medium height, has a rather long nose and sharp features.

The police have the names of twenty-six women, mostly in eastern cities, whom they charge Monroe married and swindled, but they refuse to divulge the names.

BIG OCEAN LINER IS ABLAZE AT SEA

Cargo of Steamer Patria on Fire and Cannot be Controlled

NO LIVES ARE LOST

Passengers and Crew Are All Rescued and Taken Safely to Dover

No Help in Sight Until Near the English Coast—Coolness and Method of Captain and Crew During the Disembarkment—Rapid Increase of the Flames Was Due to Lined Oil in the Cargo.

Dover, Nov. 16.—[Special Cablegram]—The passengers on the ill-fated steamer Patria who arrived here last night on the Russian steamer Ceres, have recovered from the ordeal. As many of the rescued landed in their night clothes and blankets they are spending the day perched in bed.

All the passengers are unstinted in their praise of Captain Froehlich and crew. They say that the discipline on board was marvelous, and the crew's clearing away of the boats was as methodical as a practice drill. Their work and coolness was more effective in preventing a panic than the words of the officers.

It seems that the fire on the Patria broke out on Tuesday, but only smoldered until Wednesday when it got beyond the control of the crew. In the meantime Captain Froehlich put on full steam in the hope of reaching Hamburg.

The rapid increase of the flames was due to a consignment of lined oil.

New York, Nov. 16.—[Special Cablegram]—A dispatch says that the Patria is within sixty miles of the mouth of the Elbe, in tow of the American steamer Athenian.

When Fire Was First Discovered

London, Nov. 16.—The Hamburg-American steamer Patria, Captain Froehlich, which left New York Nov. 4 for Hamburg, and passed the Lizard Wednesday, is on fire near Dover. All the passengers were rescued and have arrived at Dover.

The Russian steamer Ceres sighted the Patria, which was showing signals of distress and demanding immediate help, about twelve miles from North Hinder Lightship. The liner was enveloped in smoke. Putting on full steam the Ceres soon reached the Patria, and, sending a boat, learned that Captain Froehlich was in urgent need of assistance.

Passengers and Crew Saved

The boats were got out and with great difficulty all the Patria's passengers, numbering 150, were transferred to the Ceres, which proceeded for Dover, where she arrived just before midnight.

Francis W. Prescott, the United States consul in Dover, was immediately notified and he consulted with the harbor authorities, who arranged to send out the harbor tug Lady Vita, which brought the rescued ashore. Among the saved are many women and children as well as six babes in arms.

Description of Vessel

The Patria was one of a fleet of four twin-screw steamers added to the Hamburg-American line in 1894, its mates being the Palatia, Phoenixia and Persia. All four are of about the same tonnage and dimensions, ranking next to the Fuerst Bismarck, Columbia and Bulgaria, the great carriers of the company. The Patria was built with especial attention to speed, and its equipment was fully up to the best models of the period of its construction.

It has a gross tonnage of 8,664 and the net tonnage was 4,419. Its length was 480 feet, breadth 52 feet and depth 31 feet and its registered horse power was 578.

FIVE ALDERMEN FAILED TO APPEAR

ALD. GILKEY THINKS THEY
SHOULD BE FINED.

City Fathers Failed to Hold a Meeting
Last Evening After Making Two
Attempts This Week—Business of
Importance Was to Have Been
Brought Up.

For the second time this week members of the common council have failed to hold a meeting and all for the lack of a quorum. Last Monday evening a meeting was held and the council adjourned till Wednesday evening.

Last evening the same state of affairs existed and after waiting about till the 8:10 o'clock hour and still no quorum Mayor V. P. Richardson called the meeting to order and adjourned till next Monday evening at 7:30 o'clock.

Following were the aldermen who put in an appearance last evening: Sennett, Carpenter, Gilkey, Fifield and Palmer.

Considerable business was to have been transacted last evening and why the city fathers failed to put in an appearance is a question that is to be investigated. When the 7:45 o'clock hour arrived last evening and still no quorum present Alderman Carpenter started out to find Chief of Police Hogan before whom he laid the bare facts in the case. But one alderman was needed to make a quorum—and he was needed bad. Chief Hogan then started up and down Main and Milwaukee streets to find the needed city father.

Officers Brown and Bencke also joined in the hunt. After a half hour's search Alderman Fred Hutchinson was located, attending a meeting of the Odd Fellows. He said it was impossible for him to leave. The officers then directed their attention in another direction, and this time they were ferreting out the whereabouts of Alderman Rice. They found that he had been spending the day in Chicago. Aldermen Peters, Kothman and McLean were yet to be found, but by this time the members present became disgusted, and decided to adjourn.

Alderman Sennett then said that he would go down on the street and see if he could see any of the much-wanted aldermen. While he was absent, Mayor Richardson called the meeting to order. When Clerk Badger read the roll call Alderman Sennett failed to respond. Alderman Gilkey stated that in his opinion the missing aldermen should be fined. No action was taken on this and the meeting adjourned till next Monday evening.

Considerable business was scheduled for last evening. The most important topic to have been brought up for discussion was the "repairing" of Fourth avenue. Men who performed labor on that thoroughfare have not as yet been paid. They are men who need the money. Lack of interest on the part of the aldermen to attend these meetings is delaying their being paid.

The grading of South Main street is to be brought before the council at their next meeting. Paving on West Milwaukee street will also be discussed.

URGES LOWER POSTAL RATES

Contents of Assistant Postmaster General Madden's Report.

Washington D. C., Nov. 16.—Third Assistant Postmaster General Madden, in his annual report, recommends that the rate on first-class mail matter be reduced from one cent to half a cent an ounce, and an increase in the limit of weight of package from four to six pounds. The reduction in tariff, he says, would entail a temporary loss of revenue, but the apparent deficit would be more than extinguished by an increased volume of business and would obviate the existing difficulties in the classifications for both the patrons of the mails and the postal employees.

Remarkable Disclosures of Plankinton Bank Financial Matters

Milwaukee, Wis., Nov. 16.—Ferdinand, William and Adolph Schlesingers, the mining operators, have settled an indebtedness of \$990,463.89 for \$11,885.

This remarkable statement was made in the courts last April, but, although it was claimed it was made in open court, the orders authorizing the settle-

CITY ATTORNEY ASKS FOR HELP TO TRY 2,000 PERSONAL INJURY SUITS

(Chicago Times-Herald.)

The city law department is swamped with personal injury damage suits. Attorney A. J. Ryan finished the work of tabulating these actions yesterday and found that there were over 2,000 of them pending and that the total amount of damages asked against the city is over \$70,000,000.

The crowding of the city's personal injury docket is due to the fact that the present administration began with a policy of trying every case and refusing to settle in any case. The situation from the point of labor involved is serious and Mr. Ryan is gathering data to present to the finance committee of the council in support of a request for five additional trial lawyers for the city law department. This additional force if obtained, will require additional appropriation of at least \$15,000 a year, but it is the only way the city can escape from the maze of litigation. The majority of cases on the docket, Attorney Ryan says, are blackmailing in their character. The names of not more than a dozen attorneys or firms appear in the entire collection and with one or two possible exceptions they are all lawyers who have an odious reputation as "damage lawyers."

These attorneys always sue for large damages, from \$25,000 to \$100,000 no matter what the character of the injury, and this accounts for the large aggregate amount involved. Lawyers of this character have frequently been the subject of severe comment by

ment were not entered until yesterday. When the Schlesingers failed in 1893 they owed upwards of \$2,000,000. The heaviest creditors were three Milwaukee banks that failed. The amount of the claims of each of the banks was: South Side Savings, \$501,166.61, settled for \$6,014; the Commercial, \$365,439.38, settled for \$4,385.67; and the Plankinton, \$123,480, settled for \$1,486.

The fact that these settlements were made might have never come to light had not the attorneys for the Plankinton's found a Schlesinger item in Wm. Plankinton's account which could not be explained, as there was no order of the court authorizing it. Then Mr. Plankinton's attorney produced the order.

Judge Johnson said he signed the orders because it was either that or no thing, as the Schlesingers were about to file a petition in bankruptcy.

Loomis and ex-presidents Everett and Howard. Watertown was selected as the next place of meeting and the date of the convention was placed at Feb. 13, 14, 15 and 16.

Liberal premiums for butter and cheese will be offered and the best dairy talent in the country will be provided. A novel feature of the convention will be a premium of \$100 to be divided in prizes to be awarded to the farmers showing the best, second best and third best herds of not less than twelve cows without regard to breed, the product to cover the past year and to be authenticated by the returns at the creamery or cheese factory where the milk of the herd is received.

SERVANT GIRLS NOW PLENTIFUL

SUDDEN INVASION DURING THE
PAST FEW DAYS.

Last Week a Good Servant Could Not Be Had at Any Price—Six Come From Watertown—Wages Take a Drop—Talk of Forming a Union.

Servant girls are no longer scarce in Janesville. Last week a good servant was worth her weight in gold. But now it's different. From all parts of the country girls have been arriving during the past few days and it is all owing to the wide spread report that hired girls were being worshipped in the Bower City; that an average weekly rate of four dollars and in many cases five and even six dollars was being paid. This was in cases where the girl was a competent cook and was equally accomplished when her services were required in answering the door bell.

Last week The Gazette published an article which dealt with the servant girl problem here in Janesville. It merely stated that girls were at a premium here the truth of which statement no one denied.

The article which appeared in the

the courts and its associations, but they continue to flourish at the expense of the city and corporations. When Mr. Ryan determined to prevent the city from being bled by means of such cases, few of which are meritorious, it caused an avalanche of litigation. The lawyers always file their suits three terms ahead of declaration time and thus the city is unable to get at the facts back of the suit. When the declaration is evidently filed the cases are so old that investigation is fairly well blocked.

In addition to the docket cases there are over 1,000 petitions before the council asking for award of damages for injuries received and most of these are liable to result in suits. In appearance fees alone the city has been paying in personal injury suits over \$4,000 a year. The damage lawyers are usually aided by physicians who are ready to swear that a woman who has put her foot through a sidewalk hole is thereby afflicted with all the ills known to Gray's Anatomy, and it takes expert evidence to combat this.

The following table gives the number of damage suits pending in the several large cities:

Chicago	2,000	Minneapolis	28
Cincinnati	32	Boston	30
Philadelphia	700	Milwaukee	85

Mr. Ryan has seen Commissioner McGann, who says that he will take steps to have filled in the city sidewalks that have been built without any filling underneath.

Gazette was copied in several of the papers throughout the southern portion of the state. The result has been that Janesville is well stocked with servant girls of every age, size and color. From every town and city of any size in the country girls have been arriving on incoming trains. From Watertown yesterday noon six arrived each supplied with a good sized trunk.

Girls by the score have made application at the Gazette office this week for places. But few of them have good references and that class of girls have a hard time finding a place. Housekeepers have but little faith in a strange girl who fails to give a good account of herself. As the result of this over supply of females wage prices have taken a sudden drop and no longer will you find the five dollar a week girl. Such a thing as paying six dollars is now out of the question. Many of the girls who were attracted here have found work in local factories.

A South Main street domestic said today: "There are too many girls in Janesville now. I know of three who want places. When the leaf tobacco warehouses start girls will not be so plentiful."

A first ward lady said: "For three months we have been without a girl. Of late I have had many applications but they have been from girls who are not competent."

AMUSEMENT NOTES.

Madame Modjeska's far famed portrayal of Lady Macbeth which we shall see for the first time next Tuesday evening differs from that of other players in that she adds to the character a touch of feminine charm and softness which is to a certain extent an attribute of the great woman, and explains her power over Macbeth. Lady Macbeth is not so much the demon in the hands of Modjeska, but the calm, insinuating and ambitious woman, taunting her husband with cowardice, and goading him on by tenderness, then passion, to the murder of Duncan and when he falters, seizing the dagger and advancing herself to do the terrible deed.

Seats for "At Gay Coney Island" at the Myers opera house tomorrow night are now on sale.

THURSTON'S LOVE POEM

Washington, D. C., Nov. 16.—Senator John M. Thurston of Nebraska, and Miss Lola Pearman, in whose honor the senator wrote his famous poem, "Oh! Rose, Sweet Rose," are to be married in this city next Saturday. The couple will true a two weeks' wedding trip before returning to Washington for the session of congress.

Senator Thurston was inspired to write his poem by the present of a rose from Miss Pearman. Here is the effort in full:

OH! ROSE, SWEET ROSE!
I said to the rose, "Oh! rose, sweet rose,
Will you lie on my heart tonight;
Will you nestle there with your perfume rare
And your petals pure and white?"
I said to the rose, "Oh! rose, sweet rose,
Will you thrill to my every sigh,
Thou' your life exhalate in the morning pale
And you will wither and fade and die?"
I said to the rose, "Oh! rose, sweet rose,
Will you thrill with my every breath;
Will you give me the bliss of the passionate kiss,
Albeit the end is death?"
The white rose lifted her stately head
And answered me fair and true:
"I am happy and blissed to lie on your breast
For the woman who gets me to you."

Since its first publication more than twenty-seven parodies have been written upon it. It was used in Nebraska during the campaign in parodied form.

People who cannot wear all-wool underwear find the "Munsing" just the thing. We have Women's Vests and Pants at 50c, 75c, \$1.00, \$1.25 and \$1.50. Union Suits at \$1.00, \$1.50, \$1.75 \$2.50 and \$3.00. Misses' Vests and Pants, 50 cents—Suits, \$1.00.

Unclaimed Deposits.
The extraordinary revelation was made at a recent meeting of the State Savings Bank association of New York, says Leslie's Weekly, that there were in the savings banks of the Empire State \$1,500,000 in dormant accounts. The savings banks of New York state now hold about \$700,000, 000 of the people's money, and the dormant accounts of \$1,500,000 remain without any evidence that their owners will ever call for them. Some of

them have been dormant for over fifty years. One bank in the City of Albany reports that its unclaimed accounts aggregated over \$27,000. Some of these accounts have claimants who will appear in due season. We must, indeed, be a rich and prosperous nation when we can overlook a little item of over \$1,500,000 lying unclaimed in the savings banks of a single state.

GOOD FORM.

Very Desirable Information Appropos of the Wedding Season.

With October the wedding season has become fully established again. Here are a few points, given on the authority of Harper's Bazar, a knowledge of which will remove some of the ceremonial perplexities attendant upon the celebration of matrimony and will enable all parties to gracefully and tranquilly enact their respective roles:

A bride wears her wedding veil over her face at a church or house wedding until the marriage service has been read. It is then thrown back by the maid of honor, the small part of the veil which falls over the face being beforehand cut up the middle so that the two pieces may be drawn back easily and becomingly. The minister congratulates the married couple immediately after he has read the service and after the veil has been thrown off the bride's face. At a home wedding the person who next congratulates the couple is the bride's mother, then her father, then the groom's parents and afterward the members of the two families, the attendants, near relatives, and later every one present. Usually the bride's mother receives the guests at a home wedding. The father, who gives the bride away and is a member of the bridal procession, should not be in evidence until he walks with his daughter into the room. After the marriage service is read the bride's parents stand together near the bride to receive congratulations, and near them should stand the groom's parents, so that they may be introduced to every one and receive congratulations too.

The usual order of proceedings at a church wedding may be varied a little by a pretty innovation often seen now. The bridesmaids walk up the side aisles and meet the bride half way down the middle aisle. There the couples divide, half standing on either side while the bride passes through. Then the girls join again and in couples walk behind her to the altar. The ushers walk up the side aisles before the bridesmaids, but stop at the altar. The arrangement for standing at the altar is always the same. The groom and best man walk into the church behind the minister and stand at his left; the ushers group themselves on either side and the bridesmaids on either side in front; the maid of honor stands on the minister's right, in front of the other girls.

The bride usually wants to give the groom a wedding present, but it is not obligatory, and she is not expected to give the best man a present. The groom presents him with some reminder of the occasion as a token of his appreciation of his services.

A MUMMIED MAN.

"Josiah," said Mrs. Crimmins, "are you aware of the fact that I haven't got my Easter hat yet? And you haven't given me a cent to—"

"Your Easter hatchet?" Mr. Crimmins broke in: "what do you want of an Easter hatchet? If you can't chop kindling with the ax I bought for you six months ago I'll have to send it out and get it ground. It would be folly to spend money on an Easter hatchet when I can't afford anything better than common five-cent cigars except on Sundays."

Knowing that it would be useless to attempt to explain, the poor woman dropped the subject and resumed the business of attaching new knee-pieces to little Elmer's trousers.—Chicago Daily News

Farms in the Boer Republic.

The Transvaal government intends to deal with that formidable problem—the poor white. The state secretary has laid before the executive council a proposal, which has been favorably received, to parcel out small farms in different parts of the country to poor farmers. Such farms to be valued and a certain rate of interest added, both interest and capital to be paid back by the occupant by yearly installments spread over fifteen years.

The following copy of a telegram speaks highly of the Jubilee Singers' ability.

Telegram to Rev. N. H. Schenck, Lock Haven, Pa.—You cannot use too strong superlatives concerning the Jubilee Singers. Orchestra fine; mandolin, superb; plantation songs, true to nature. Other vocal selections rendered in the best of style. They far surpass the Fisks. Rev. J. M. Johnson.

The management has concluded to have no reserve seats and make the general admission 25 cents. Tickets on sale at Helmstreet's and Sherer's, also W. J. Hall & Co. and Stevens & Bates.

AN EXPOSITION EXPERT.

New Director
General of the Big
Pan-American.

Mr. William I. Buchanan, who has just assumed the post of director-general of the Pan-American exposition which will be held in Buffalo in 1901, was recently United States consul to Argentina and resigned the office for his present position. He has established his home in Buffalo and will remain there until his duties connected with the exposition cease.

Mr. Buchanan will be the autocrat of the big show which is designed to strengthen the commercial bonds between the sister republics of the two Americas. All departments will come under his supervision and operate under his direction. He will have a salary of not less than \$10,000.

Mr. Buchanan was born near Covington, Miami county, O., but much of his active business life has been spent in Sioux City. He is 43 years old, the son of a farmer, and was educated in country schools. His political career began with his employment, when a young man, as engraving clerk in the Indiana house of representatives, a position he held for two years.

The new director general's experience in exposition work began with the organization and management of the first of the famous corn palaces in Sioux City. His prominence there led to his appointment as chief of the departments of agriculture, forestry and live stock at the World's fair in Chicago in 1893, and he was connected with the fair also as Democratic member for Iowa of the World's Columbian com-

mission, one indeed of the more prominent officials of that great fair. The high commendation given to his work in these various capacities is what induced the directors of the Pan-American to invite him to accept the highest post in their gift.

Mr. Buchanan was appointed minister to the Argentine Republic by President Cleveland, and his services were so satisfactory to the government that he was continued in the office by President McKinley. He won the especial gratitude of the Argentine government by his diplomatic success in the settlement of the Puna boundary disagreement.

England's Most Famous Surgeon Goes to the Front in South Africa.

The most famous surgeon in Great Britain will go to the front in South Africa as the head of the medical and surgical department of the British army. He is Sir William MacCormack, president of the Royal College of Surgeons. He goes as a volunteer, his recent offer having been gladly accepted by the war office.

Sir William has received many more decorations than could find room on his exceptionally ample breast, for his devotion, skill and courage have been shown no less on foreign battlefields than in the wards of English hospitals. His public career cannot be said to have begun with the Franco-German

war, for he was already well known at home when he volunteered his services as an ambulance surgeon therein. But it was there and subsequently in the Turko-Servian war that he met with the most striking of his experiences and did that work which has won for him orders and decorations from every country.

The experiences which he gained as a surgeon in the Franco-German war and afterward embodied in book form have had doubtless much to do with the vastly improved condition of field hospitals and ambulance service on battlefields of later date. He was born in Belfast 63 years ago.

PLENTY OF IT.

Lots More Proof Like This, and it is All From Janesville People.

"The proof of the pudding is in the eating of it." If any city or town in the Union has sufficient proof on the following subject it is Janesville. Genuine merit is finding its reward in the hearty endorsement of local citizens. When people right here at home, friends and neighbors of our readers, give a statement like the following for publication, it is proof convincing for the most skeptical. Read this testimony:

Mrs. L. B. Canniff, of 107 Cornelia street, says: "I doctored from time to time for eight or ten years for kidney complaint. I felt fairly well as long as I took medicines, but I left off I immediately became worse. At one time I had such a severe attack that I came near dying. The pain became so severe that it brought on nervous chills, my finger nails turned purple and I never suffered so much in my life. The medicine I took acted as a stimulant while I used it, and I finally recovered in a measure. During three years I suffered from attacks of headache, dizziness and backache. It was for these reasons, that on learning about Doan's Kidney Pills, I procured them from the people's drug store. They are a splendid remedy. The pain in the region of my kidneys was removed in a short time and since completing the treatment I have felt better generally."

Says Dewey Will Not Run.

Washington, Nov. 15.—Senator Proctor of Vermont in an interview said: "It is not true that I am trying to start a Dewey boom for the presidency. It was generally understood before Dewey left Manila that he was averse to being drawn into politics, and I am in a position to know that since his arrival in this country his antagonism has been confirmed. There is absolutely no possibility of his nomination next year. He is out of it and I am not trying to run him as a candidate."

THIS DAY IN HISTORY.

1315—Battle of Morgarten; the Swiss defeated the Austrians.
1632—Gustavus Adolphus, the idolized king of Sweden, killed at the battle of Lutzen after defeating the Imperial army under Wallenstein. Gustavus Adolphus was not only the most illustrious hero of Sweden, but of his time as well. He ascended the throne in his seventeenth year and at once gave proof of extraordinary abilities. He defeated the allied armies of Poland and Russia and gained new territory for his realm. In the Thirty Years' war this illustrious monarch commanded the great Field Marshal Tilly, who was killed in battle, and Wallenstein. Schiller called him "the first commander of his century and the bravest soldier in the army which he created."
1776—The British captured Fort Washington, completing their conquest of New York.
1811—John Bright, English statesman, born; died 1889.
1836—Rev. Dr. Samuel Smith, author of "America," died in Boston, born 1793.
1898—Dr. Stephen D. Tyng, once a prominent Episcopal divine and later president of the American chamber of commerce in Paris, died there; born 1840.

VON HOLST'S CHANGE OF HEART.

Professor Von Holst, of the Chicago University, has talked a good deal of late, and denounced what he was pleased to term "imperialism" without restraint. The Chicago Inter Ocean has scored a telling point on him, however, by reproducing the following extract from his constitutional history of the United States, a work which was published about eighteen years ago:

It is an established law of historic growth that decayed or decaying peoples must give way when they clash in a conflict of interests with peoples who are on the ascending path of their historic mission, and that violence must often be the judge to decide such litigation between nations. Might does not in itself make right, but in the relations of nations and states to each other it has, in innumerable instances, been justifiable to make right bow to might. In whatever way the ethics of ordinary life must judge such cases, history must judge them in the light of their results, and in so doing must allow a certain validity to the taboos of principle that the end sanctifies the means.

The Inter-Ocean admits that it annoys the learned professor to be confronted by these paragraphs at this time but says that "his annoyance, however, does not alter the fact that he has been attempting during the last ten years to controvert every principal which he laid down in the above passages eighteen years ago. There is no reason to believe that he has called in his constitutional history, either, and there is no evidence going to show that any portion of it has been subjected to recent revision."

BRYAN A FILIPINO LION

"The Independence," a Filipino newspaper published at Tarlac, recently published an article in which this statement was made:

"Mr. Bryan should be pictured in Filipino history with equal glory with Dr. Rizal. Rizal, Bryan and Aguinaldo are the glorious trinity of our political redemption."

Bryan should feel highly complimented. Few Americans have enjoyed the distinction of being classed with the commanding general of an army that is fighting American soldiers. Therefore the Nebraska man should naturally feel more or less elated at being considered so powerful an ally of the enemies of the United States government.

A good brick pavement is the best and cheapest that can be had. The system of charging the cost of such improvement to the property is a just and equitable one. The fact that the Milwaukee street pavement is not, perhaps, just what it should be does not disprove these facts—it simply demonstrates that "the best is the cheapest" and that unwise economy is only wasteful extravagance.

The Milwaukee street pavement has caused all kinds of trouble—Contractor Watson has lost money; the property owners are complaining; and no one is pleased. There are several reasons for this condition of affairs, the principal one being the lack, on the part of several people, of necessary knowledge and experience.

W. J. Bryan is glad that Maryland and a few other states went Filipino. He has a right to be, but the American people are correspondingly glad that a majority of them went for the American flag, the American soldier and Republicanism.

Probably Billy Mason again felt called upon to blush when he heard that the Filipinos considered "Rizal, Bryan, and Aguinaldo" the three greatest Filipino patriots.

It is a wonder that the Filipinos have not invited Mr. Bryan to come to the Philippines and run for vice president on a ticket with Aguinaldo at the head.

REPORTED DEATH OF JOUBERT

Boer Commander Said to Have Been Killed in Battle.

[Continued from page 1.]

anxiety with which the British press views the situation at Ladysmith. Since Friday 19,000 men, between 12,000 and 14,000 horses and mules, three batteries of field artillery and a number of Maxims have been landed. More than 5,000 of these soldiers are at Durban, and five other transports, with at least as many more, are on the way from the Cape.

If the question of relieving Gen. Sir George Stewart White were merely one of men these re-enforcements would soon arrive at Ladysmith, but transports must be organized and supplies of food, forage and ammunition forwarded—all of which requires time.

It is considered here unsafe to concentrate at present at Estcourt, which would inevitably be attacked in force, and a further withdrawal from an untenable position, with a disastrous loss of stores, would result. Even when the time comes the advance will be no easy task, especially if the Boers shall have destroyed the bridges over the Tugela river. It is possible, however, that Bulwer bridge at Colenso has not been mined, as has been believed, in which case the movement toward Ladysmith will be rendered easier.

For the next fortnight, therefore, or until White shall win a decisive victory or fail, Ladysmith must continue to be the center of interest and anxiety. The Boers are now aware that Ladysmith will not fall to their artillery fire; that they must choose between an actual assault in the open, a storming of the British works, and a retirement to the passes of the Drakensberg before the re-enforcements hastening from Durban.

To such an assault they are notoriously averse. They fight best—with no disparagement to their personal bravery—from behind something; yet, on the other hand, to fall back to the mountains would be so far different to their promised march to the sea that they are likely, in the view of many good judges, to make a desperate effort to make good their vaunt.

The actual war news received is of the slightest, and all relates to operations on the western and northern borders of the Transvaal. The undated dispatch from Mafeking received at Cape Town by way of Magalays, last Wednesday, refers, it is true, to an action already officially reported—that of Oct. 25—but it is received here with great satisfaction for the proof it gives that the town is well provisioned; that the inhabitants are cheerful and the garrison determined, and that Col. Baden-Powell is unflinching in his conviction that he will be able to hold out against any attack. It is satisfactory, too, to learn that the fighting is being conducted on civilized lines.

From other sources, also, it is learned that the situation on the western and northern borders of the Transvaal is sensibly improved. The Boers appear to have removed their forces to such an extent as to render the relief of Mafeking not only possible but probable. No anxiety is felt in behalf of the town, and it is thought doubtful if the Boers will make another attack.

Not so much can be said for Kimberley. Indeed, a determined effort to capture the town is altogether likely. No news arrives of the operations in the direction of the Orange river.

Closing in on Ladysmith. Pretoria, Nov. 9.—Some of the Boer the British lines at Ladysmith, according to reports received here from the Boer camp at Ladysmith. The reports say that a heavy cannonading started at daybreak this morning. This ceased when some of the commandos arrived within 1,500 yards of the lines of the British, and a musketry fire was immediately opened by the advancing forces. So far as learned here all is quiet at Mafeking and Kimberley.

From the transports which have arrived within the last week more than 18,000 men have been added to the strength of the British force.

The total British casualties, so far as at present known, amount to 2,362. The killed are returned at 267, and the missing at 1,202.

Vague Report from Ladysmith. London, Nov. 16.—Belated dispatches from Ladysmith, dated Nov. 7, tell of a languid bombardment and of a native rumor that the Basutos are on the warpath, which is supposed, according to one correspondent, to have had the effect of inducing some of the Orange Free State troops to abandon the siege and return to their own territory, and also to be accountable for the slackness of the attempts on the Ladysmith defenses. Another correspondent says it is reported that in the attack upon the Free State forces at Dewdorp the Boers had 300 killed and wounded.

If the reports that the Free State

burghers are tired of the affair and are going home should prove true the fact would be most important, as their retirement would probably compel Gen. Joubert to withdraw northward. The statement that the Boers are entrenched so closely to Ladysmith is held in some quarters to indicate that they are running short of ammunition for guns.

Say Fight Was Serious.

London, Nov. 16.—According to reports the fight in the vicinity of Belmont in the Orange river country last Friday was not a mere skirmish, but a heavy engagement. The British force under Col. Keith-Falconer, which had encamped recently on the Orange river and was composed of the North Lancshires and Northumberland fusiliers, started on a reconnaissance in the direction of Belmont. On the edge of the town a large force of Boers met them and a fierce battle ensued.

Col. Falconer was killed and a large number of officers and men were wounded. The Boer losses are unknown.

Insist That Ladysmith Has Fallen.

Paris, Nov. 16.—Persistent rumors that Ladysmith has fallen are in circulation here. A paper which yesterday afternoon announced the capitulation of Gen. White's forces did not give its authority, but the report gains general credence. It is held that the British war office's failure to give out late bulletins on the situation at the besieged town indicates that there is nothing satisfactory to announce, and many suggest that news of disaster to the imperial army is held back.

Buller Likely to Move Soon.

London, Nov. 16.—All Gen. Buller's arrangements for the advance from Durban, it is rumored, are practically completed, and news of it may be expected in a few days. The war office has received several dispatches dealing with military details, but it is not likely that these will be published. The whereabouts of Gen. Buller is not publicly known here, but he is believed to be up-country somewhere.

Advance May Soon Begin.

London, Nov. 16.—From Ladysmith there is again no news this morning, and apparently events are conspiring to await the arrival of the British troops. The British strength near Estcourt must by this time be fully 11,000 men, with at least eighteen guns, and a few hours may see the beginning of the advance to relieve Ladysmith.

Riders to Aid the Transvaal.

Strasbourg, Nov. 16.—Baron von Reitzenstein, major of the general staff of the Fifteenth army corps, garrisoned at Alsace, having been denied a furlough to enlist in the army of the Transvaal, resigned his commission, and has already left for South Africa.

Methuen Off for North.

Cape Town, Nov. 16.—Gen. Lord Paul Methuen of the First division, accompanied by his staff, went north this evening by train.

TRAMP SETTLEMENT AROUSES MEMBERS

CLINTON BILL BEFORE THE COUNTY BOARD.

It is Alleged That Officials Are
Willing to Settle at a Rate of Fifty
Cents on the Dollar—Matter Was
Discussed This Morning—Other
Business.

Settlement of claims presented by
Clinton parties against Rock county
occupied the attention of the Rock
county board of supervisors this morning
at their adjourned session.

No question has come before the
board in years that has caused as much
interest as the settlement of these claims
from Clinton. The trouble originated
two years ago and the board of super-
visors allege that certain Clinton parties
have been trying a stiff bunco game
thinking that Rock county would settle
the expense and let it go at that. But
board members have never been able to
see it that way. For several years past
Clinton has been celebrated as a step-
ping off place for the wandering hobo.
Clinton is also the home of several
officers and constables who are said to
be experts in the art of detecting and
arresting tramps.

Tramps Flocked Into Clinton

During the year 1897 it is said that
tramps flocked into Clinton at a rate
that was most alarming. They came in
droves on every incoming freight train.
Whether or not these hoboes in 1897 in-
tended to stop off at Clinton or not is
another question. At any rate the chief
of police in Clinton is said to have given
out orders to his officers to the effect
that every wandering Willie that showed
his head in Clinton should be arrested
on the charge of being a vagrant. The
carrying out of this order nearly raised
a panic in Clinton.

Tramps of every imaginable size,
color and age were arrested with the
arrival of each freight on the Chicago &
Northwestern and the Chicago, Milwan-
kee & St. Paul railroads. The city lock-
up was filled to the very roof every
night. It was a dull day when a dozen
tramps were not captured. Like every
well regulated place Clinton has a jus-
tice of the peace. For years H. N. Con-
krite has filled this trustworthy place,
and a more competent man never occupied
a law book. At the time this wholesale
tramp massacre act went into effect at
Clinton, the police force there was
ably looked after by George W. Earle,
F. B. Rogers and A. Baldwin. Now
according to the supervisors of Rock
county they allege that Messrs. Rogers,
Baldwin and Earle were too free in rush-
ing these worthless hoboes before Justice
Conkrite. They also allege that even
Justice Conkrite was too free in
passing sentence on them,
which meant much expense every time
one was sent to jail. And it was this
expense to the county that has caused
all the present trouble.

The Clinton Tramp Bill.

When the last tramp had arrived at
Clinton the interested officers and jus-
tice of the peace then got together and
filed the following expense account
against Rock county:

H. N. Conkrite, justice fees.....	\$272.16
H. N. Conkrite, justice fees.....	65.02
F. B. Rogers, constable fees.....	53.24
F. B. Rogers, constable fees.....	4.90
Citizens' Bank of Clinton, assignee of	
Geo. W. Earle.....	32.90
Daniel Shimeall, assignee of George W.	
Earle.....	101.62
George W. Earle, marshal fees.....	23.80
A. Baldwin, constable fees.....	50.40
A. H. Mohlenpaul, assignee of A. Baldwin	
Daniel Shimeall, assignee of George W.	
Earle.....	74.20
Daniel Shimeall, assignee of A. Baldwin.....	73.00

The county board at their last meet-
ing not being willing to settle the mat-
ter at any such figures passed resolu-
tions condemning the work of the
Clinton officers. Then the Clinton offi-
cials took the matter into court and the
case is on the present November term
of the circuit court of Rock county for trial.

May Out Bill in Two

At the meeting this morning when
the settlement of the claims was brought
up it was quite evident that many mem-
bers favored a settlement. It is now
said that the Clinton interested parties
are willing to settle on a basis of just
half of their original claim. Supervisor
J. L. Bear then read the following resolu-
tion, which was adopted and placed on
file.

"Be it resolved that the matter of the
prosecution or settlement of the claims
against the county now presented in the
circuit court of Rock county, on appeal
from this board, be left with committee
No. 13, hereby authorizing said com-
mittee to act in such manner as it may
deem fit and to make and file a report
of their action therein. And in case the
said claims shall be compromised, settled
and adjusted, the county clerk on the
filing of such committee, is hereby
authorized to draw orders to the persons
and in the amounts reported by such
committee." The sum of \$25 was
appropriated to Patrick McGrath of the
town of Fulton. McGrath is a county
charge.

A. C. Powers, from the committee on
claims, presented a lengthy report,
which was read, adopted and placed on
file. This report dealt with general
claims and examination of insane.

J. L. Bear, from the committee on
claims of sheriffs and constables, justices,
change of names and post mortem ex-
aminations, read his report, which was
adopted and placed on file.

At 11 o'clock the board adjourned un-
til 1:30 o'clock this afternoon.

This afternoon the board discussed
bills and at 3 o'clock adjourned until
January 16 at 2 o'clock.

F. A. Wescoott returned to Chicago

CHAS. TRASK GIVEN ONE YEAR SENTENCE

PRISONER PLEADED GUILTY TO LARCENY.

Stole \$111 From a Fellow Boarder in
Beloit—Wife Causes Scene in
Court When Sentence is Passed—
Prisoner is a Madison Man and Well
Known.

For the larceny of \$111. Charles
Trask of Madison, pleaded guilty before
Judge C. S. Fifield this morning and
was sentenced to one year's confinement
in the state prison at Waupun. When
sentence was passed Mrs. Trask, wife of
the defendant, cried aloud and wept as
though her heart would break.

The scene enacted was a pitiful one,
and brought tears to the eyes of all
present. Trask committed the crime at
a boarding house in Beloit last month,
taking the money from a trunk, which
was the savings of a fellow boarder
named Hanson. It is alleged that Trask
was drunk at the time.

After taking the money Trask visited
several Beloit stores and displayed a big
roll of money and at one saloon had a
ten dollar gold piece changed. He told
the barkeeper he was going to Rock-
ford, but instead he took the 3:35 train
to Madison, where the police traced
him. Hanson discovered his loss upon
his return from work and reported the
burglary to the police.

Trask was in the state capital with
his wife three weeks and left there for
Milwaukee. Marshal Appleby wired the
Milwaukee police to keep a sharp look-
out for the man and received a telegram
saying that Trask had been arrested
when he stepped from the train in Mil-
waukee.

Mr. Hanson intends to bank his
money hereafter. Forty-five dollars of
the money was in gold and \$66 in
bills.

On being arrested Trask returned \$85
of the money as well as an overcoat that
he had purchased. The prisoner bears
a good reputation and aside from his
late deed no other charges were found
against him.

When the case was called this morn-
ing Attorney A. C. Hoppmann of Mad-
ison, made an excellent plea for the
prisoner who was neatly attired in a suit
of blue. Prior to moving to Beloit
Trask resided in Madison. In default
of \$800 bail he has been in jail here. Dis-
trict Attorney Jackson represented the
state of Wisconsin.

TWIN BROTHER DIES SUDDENLY OF CROUP

WAS APPARENTLY WELL LAST EVENING.

Mr. and Mrs. James Mair of Prospect
Avenue, Lose their Second Son
Within One Week—Child Was
Playing About the House Last Even-
ing—Three Doctors Called.

James Mair, four-year old son of Mr.
and Mrs. James Mair of Prospect av-
enue, died at 7:30 o'clock this morning
at their home. Death was due to a sud-
den attack of membranous croup.

For the second time, within a week
the death angel has invaded the Mair
homestead. Last week a twin brother
of the deceased died of the same disease.
At that time the other child showed no
signs of being ill.

Yesterday he was apparently as well
as ever and not once did the parents
suspect illness. Last night the child
played about the house and until bed
time amused himself cutting paper. At
9 o'clock he showed signs of being ill.
His symptoms were the same as caused
the death of his twin brother.

Drs. James Mills and E. E. Loomis
were called and with the assistance of
Dr. Jackson of Madison an operation
was performed. The afflicted parents
have the sympathy of the entire com-
munity. Funeral services will be held
tomorrow afternoon at 2 o'clock from
the house, 160 Prospect avenue.

Rev. E. H. Pence will officiate and the
interment will be in Oak Hill cemetery.

Jesse Harvey, a well known farmer in

terribly mangled in a corn shredder.
While feeding the machine his right
hand accidentally caught in the machin-

was torn to pieces so that amputation
was found necessary by Drs. E. F.
Woods and F. B. Farnsworth who were
called from this city.

Mr. Harvey's head and chest were also
badly bruised. The injured man is
sixty-three years of age and on account

TAKE MORE TOWNS IN PANAY.

Expedition Under Gen. Hughes Meets with Success.

HAMPERED BY HEAVY RAINS.

Movement Was Against Santa Barbara, the New Rebel Stronghold—Aguinado Advises His Followers to Conduct a Guerrilla Warfare.

Manila, Nov. 16.—Gen. Hughes, with parts of the Nineteenth and Twenty-sixth regiments, moved from Iloilo Thursday, Nov. 9, to Oton, six miles west, for the purpose of capturing Santa Barbara, the rebel stronghold, ten miles north of Iloilo. Heavy rains preceded the movement, and the roads were in places impassable. The same night Col. Carpenter, with the Eighteenth regiment and battery G of the Sixth artillery, moved westerly from Jaro to connect with Gen. Hughes.

Col. Carpenter was forced to return to Jaro on account of the roads, and the entire movement was hampered by lack of proper transportation. Company C of the Twenty-sixth regiment had the only fighting. When three miles out of Jaro this company charged the rebel trenches and three of the enemy were killed. One American was wounded.

Gen. Hughes Nov. 12 occupied Tigbauan and Guimbal, on the southern coast, and also Cordoba, in the interior. The enemy did not oppose Gen. Hughes' advance.

Recent orders from Aguinaldo found in the trenches said: "Do not oppose the Americans' advance. Burn the villages as they are evacuated. Divide the forces into bands of forty. Harass the Americans on every occasion."

Araneta, the rebel leader of the island of Panay, was captured at Tigbauan while attempting to pass the lines into Iloilo. Two battalions of the Twenty-sixth will garrison Iloilo and Jaro.

San Miguel, visible from Iloilo, has been burned by the rebels. It is reported that an expedition, evading the navy, recently landed arms and ammunition on the Antique coast, and that the rebels threaten opposition with an armed force of 3,000 men. These stories are not believed.

All ports of the Sulu islands outside of the American possessions have been ordered closed to commerce.

Warning to Aguinaldo.

Washington, Nov. 16.—The president is making efforts to secure the protection of the Spanish prisoners with the insurgents in the Philippines. A cable message has been sent to Gen. Otis, and by him forwarded to Gen. MacArthur, with instructions to get it to Aguinaldo, if possible, relating to this subject. The president requests the kindly and humane treatment of the Spanish prisoners, and the message also contains an intimation that any of the insurgents responsible for the ill treatment of such prisoners will be held to strict account when they are taken by the United States' forces operating in the islands.

American Troops at Gibraltar.

Gibraltar, Nov. 16.—The United States transport Thomas, the finest troopship in the American service, arrived from New York Wednesday, having on board 1,380 men—the Forty-seventh regiment, which was recruited at Camp Meade, Pa. The passage was made in ten days. All on board are reported well. The transport sailed today for Manila.

NATIONAL GRANGE MEETS.

Grand Master Jones Makes Many Recommendations in His Address.

Springfield, Ohio, Nov. 16.—The National Grange of Patrons of Husbandry began its thirty-third annual session here Wednesday with twenty-five states represented.

Aaron Jones of South Bend, Ind., master of the grange, in his annual address denounced the present railway freight system as fostering trusts and recommended the opening of waterways to connect the Mississippi river with the great lakes and the great lakes with the Atlantic ocean. Among the recommendations made by Grand Master Jones were the following:

Free delivery of mails in the rural districts; postal savings banks; election of United States senators by direct vote of the people; giving the interstate commerce commissioners power to fix maximum rates of fare and freight on all interstate railways; extension of the market for farm produce; enactment of an anti-trust law clearly defining what acts on the part of any corporation would be against public policy; speedy construction of the Nicaragua canal by the United States.

ROOT OUT FOR SECOND PLACE.

Report That He Has Ambition to Be Vice-President.

New York, Nov. 16.—The World says: "Elihu Root, secretary of war, has entered the contest for the second place on the republican national ticket. President McKinley has already intimated to the party leaders in New York that he is favorably impressed with Root as a running mate."

Colorado Springs, Colo., Nov. 16.—Secretary of the Navy James D. Long denies the Washington story sent out that his resignation is in the hands of President McKinley. He says: "There is nothing in it except that my resignation is always at the pleasure of the president."

Brands the Story as False.

Washington, Nov. 16.—The state department has no knowledge as to the report that Great Britain has insisted on the cession of Pyramid harbor as preliminary to arbitration of the Alaskan boundary. It is stated positively that since the agreement on the modus vivendi several weeks ago there has been no effort on either side to resume the negotiations in regard to the permanent settlement of the Alaskan boundary. This government has done nothing nor has it received any proposition from Great Britain.

Indians Hung an American.

Nogales, Ariz., Nov. 16.—Two Americans, named Nettleton and Bostwick, were attacked by Yaqui Indians, near Ontogato, Mexico. Nettleton was captured and hanged. The fate of Bostwick and about a dozen other persons in that vicinity is unknown. The Mexican troops are making a vigorous campaign. They were successful in a fight at La Angostura, in which three Mexicans were killed and nine wounded.

President of Municipal League.

Columbus, Ohio, Nov. 16.—The fifth annual meeting of the National Municipal league and the seventh annual conference for good city government opened in this city Wednesday. Over two hundred delegates are present, the gathering being a most representative one, being composed as it is of city officials and municipal authorities from all over the country. James C. Carter, New York, was elected president.

Tyler Lynching Case Up.

Indianapolis, Ind., Nov. 16.—The trial of the Tyler lynching case began in the United States court Wednesday with a large number of witnesses from Scott county. The plaintiff's attorneys sprung a surprise by stating that Mrs. Tyler was killed while trying to prevent her husband from committing suicide, and her death was accidental.

Senator Hayward's Condition Critical.

Omaha, Neb., Nov. 16.—Reports from Nebraska City are to the effect that Senator Hayward is very low. There is no improvement in his condition, and attending physicians do not look for any unless it is a temporary rally. They give no encouragement that he will ever recover.

Mr. Roberts Will Not Resign.

New York, Nov. 16.—Congressman B. S. Roberts of Utah, who is in the city, denied the report that he intends to resign his seat shortly after congress meets, in pursuance of the wishes of the elders of the Mormon church.

London, Nov. 16.—The News' Cairo dispatch says spies advancing the report that the Khalifa is advancing on Omdurman. Several British officers and a detachment of the Seaford Highlanders are going to Khartoum.

REVOLUTION VERY NEAR.

Spanish Internal Troubles Approaching a Crisis.

SILVELA - CABINET DOOMED.

Next Government Likely to Be Under Control of the Military Powers—Refusal of Citizens of Barcelona to Pay Taxes—Discontent at Madrid.

Madrid, Nov. 16.—The speedy downfall of the Silvela cabinet is considered certain, and the rulers of Spain, dynastic and ministerial, if they were convinced that the trouble would end there would be devoutly thankful. Just what politicians think of the situation may be judged when it is known that all the talk relative to the formation of a new cabinet takes it for granted that that cabinet will be military. Just now it is considered possible that Gen. Azcarra will be the next premier, and also minister of war.

The spirit of defiance is not confined to Barcelona. In Madrid are heard mutterings of discontent, although opinion on the subject of taxpaying under the new levies is divided. The jewelers of the capital have paid their taxes, but the mob threatens to sack the shops by way of recompense.

Two brigades of the Madrid garrison are being put in readiness to leave for an unknown destination. No doubt is entertained here that they will be dispatched to Barcelona.

ON THE VERGE OF REVOLUTION.

Refusal of Barcelona Citizens to Pay Taxes Forces a Crisis.

Paris, Nov. 16.—The grave situation in Spain is followed here with the closest attention. It is the opinion even of conservative judges that the kingdom is on the eve of revolution. The refusal of citizens of Barcelona to pay taxes is regarded as the critical point in the situation, for it is believed here that if the government pushes the Catalan merchants too hard a general revolt will result. The real government of Spain at this hour is the central committee of the chambers of commerce, representing all the vital forces of the country.

Farming Implement Makers Meet.

Cincinnati, Nov. 16.—About 200 delegates were present today at the opening of the sixth annual convention of the National Association Agricultural Implement and Vehicle Manufacturers. Chairman Nouse of Louisville presented the annual report of the executive committee.

A YOUNG MAN'S SUCCESS.

How He Secured Happiness—Hope for Others.

Three years ago I was a wreck of manhood, without ambition, energy or hope. I was a victim of secret vice and the fearful results of the vice habit which so often robs men of manhood and health, renders life a burden, business a failure and marriage a disappointment. I was weak, tired, languid, despondent and nervous, together with other symptoms of that disease of error. I felt that my life was wasted and I had changed a career from a cheerful, hopeful, light-hearted, happy girl, became discouraged, dissatisfied and careless; disappointment and unhappiness were pictured on my countenance. I was conscious that my crime against nature, although done in ignorance and thoughtlessness, was the cause of all my trouble and felt like a criminal in hiding, fearing discovery. I was in despair, and often wished the cord of life might be broken and I be released from a bondage which was worse than death.

To-day I am well and happy, restored to perfect health and vigorous manhood, relieved of all the effects of disease, and experience tells me that a cure that brings back the health and energy that seemed lost forever, he naturally wants his fellow man to know about it and to lift out of bondage the thousands of young middle-aged single and married men who are to-day suffering with a shattered nervous system as I did. It is for them that I tell this story. While suffering from my trouble, I was advised by Rev. E. F. Johnson to consult Dr. N. E. Wood, the celebrated Chicago Specialist. I did so, and he restored me to health and happiness which I would not part with for the wealth of the world. I have asked him to publish this letter for the benefit of others who should seek a cure before it is too late.

I am grateful to you, GEO. A. GOODWIN, 743 Madison St., Chicago, Ill. Dr. Wood may be consulted free at Hotel Myers, Janesville, Saturday, November 18th, in another column.

PAT O'DEA MAY COACH

The Great Kicker May Take Charge of the Madison Football Team Next Year.

Milwaukee, Wis., Nov. 16.—[Special]—It looks as though Pat O'Dea might be coach of Wisconsin varsity football team next year. Phil King re-asserts his intention of quitting the work this fall after the last of the football games have been played, and it is said that his mind is made up not to be changed by any inducement that might be made to him to stay another year. If such is the case the Wisconsin men will soon be casting about for a new coach and O'Dea seems to be favorably thought of in that connection. Pat is such a popular man here that it is generally admitted that he can have almost anything he asks for. He has held the position of captain with such successful results that it would be almost a pity if his veteran services were not rewarded by at least the proffer of the position.

In all these years he has not drawn any pecuniary benefit from his labors in helping to bring Wisconsin into the foreground of western football history, and now that there is an opportunity to in a measure, recognize his services in giving him a remunerative position, it seems that that should be done, if he desires it. The position commands a salary of \$1,700 a year—that is—for the season of football playing which lasts, including preliminary training, from the beginning of September to the end of November—about three months at a salary of about \$565.

O'Dea has been playing football since he was a mere boy, counting fifteen years experience. He has grown into the game as probably no other player in the west has done. He has led different men through some of the fiercest battles ever fought on the gridiron. Has outgeneraled some of the best captains known to the sport. While it does not appear that O'Dea has in any way intimated that he desired to succeed Phil King, there is not much doubt but what his love for football would make it easy to persuade him to close his career on the gridiron by a year of coaching. He will graduate next spring and it was altogether natural for him to say that this fall he would abandon the game, but if he can stay another year on a salary it is probable that he will accept.

Wisconsin's line-up in the game with Minnesota next Saturday will be about the same as in Milwaukee last Saturday against Illinois. It is likely that Wilmarth will play. Larson has been debarred from further playing by the faculty.
